Please read in conjunction with **Koorringal High School Assessment Policy**.

The Assessment Policy is located on the school's website as well as through the Year Adviser and Deputy Principal.

This Handbook includes the assessment schedules for each course of study which students are expected to complete.

Periodic assessment is an important way for students to demonstrate that they have successfully achieved the outcomes of the course being studied. Assessment tasks also allow teachers to find out where students are having problems with course work, concepts and skills so that they may intervene if necessary to correct student misunderstanding.

All staff at the school will provide support for students in their learning, or to help inform decisions and to overcome problems should they arise. There are some key staff that will have particular responsibilities and interest in the general well-being of students.

These include:

Classroom teachers

Head Teachers of all faculties

Year Advisor: Mrs Margot Brissenden

Deputy Principal Year 8: Mr Peter McCartan

Learning and Support Teacher: Ms Anna Swift and Ms Bernadette Howard

Student Support Officer: Kelsie Hodges

Careers Advisor: Mrs Kirsten Fitzgerald

School Counsellor: Mr Aaron Johnston and Mr Paul Wetherbee

Principal: Mr Kyle Bryant

Students should feel confident to seek their advice and guidance should question or issues arise, or simply to clarify issues if uncertain.

Parents are also welcome to contact the school if they have concerns regarding their children's academic progress. For general concerns, please contact the Year Advisor. For concerns regarding a particular subject, please contact the Head Teacher of that subject. The Head Teacher's name is listed on the subject assessment schedule.

Mr Kyle Bryant

Principal

Koorringal High School Reports

To inform students, parents and caregivers of student progress, the school issues Semester One reports at the end of Term 2 and Semester Two reports at the end of Term 4.

In each subject, student progress will be indicated on the report in three ways.

1. Overall progress in a course is indicated by an Assessment Grade. This can be done by calculating course marks of student achievement calculated by adding together the marks for the assessment tasks and teacher judgement using the common grade scale for each course.
2. Progress in the learning outcomes will be indicated using the Common Grade Scale:

Achievement Scale	Achievement Description
Outstanding Achievement	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
High Achievement	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
Sound Achievement	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
Basic Achievement	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
Limited Achievement	The student has an elementary knowledge and understanding in a few areas of the content and has achieved very limited competence in some of the processes and skills.

3. Other information, including work habits, areas for improvement and how they can be achieved will be included in the teacher comment.

This Assessment Information and Schedule should be read in conjunction with the Koorringal High School Assessment Policy.

This can be found at <http://www.koorringal-h.schools.nsw.edu.au/> – “Curriculum & Activities” – “Assessment & reporting”.

Individual Course Assessment Schedules

English

Outcomes

EN4-1A responds to and composes texts for understanding, interpretation, critical analysis, imaginative expression and pleasure

EN4-2A effectively uses a widening range of processes, skills, strategies and knowledge for responding to and composing texts in different media and technologies

EN4-3B uses and describes language forms, features and structures of texts appropriate to a range of purposes, audiences and contexts

EN4-4B makes effective language choices to creatively shape meaning with accuracy, clarity and coherence

EN4-5C thinks imaginatively, creatively, interpretively and critically about information, ideas and arguments to respond to and compose texts

EN4-6C identifies and explains connections between and among texts

EN4-7D demonstrates understanding of how texts can express aspects of their broadening world and their relationships within it

EN4-8D identifies, considers and appreciates cultural expression in texts

EN4-9E uses, reflects on and assesses their individual and collaborative skills for learning

Geography

Outcomes

- GE4-1** locates and describes the diverse features and characteristics of a range of places and environments
- GE4-2** describes processes and influences that form and transform places and environments
- GE4-3** explains how interactions and connections between people, places and environments result in change
- GE4-4** examines perspectives of people and organisations on a range of geographical issues
- GE4-5** discusses management of places and environments for their sustainability
- GE4-6** explains differences in human wellbeing
- GE4-7** acquires and processes geographical information by selecting and using geographical tools for inquiry
- GE4-8** communicates geographical information using a variety of strategies

History

Outcomes

HT4-1 describes the nature of history and archaeology and explains their contribution to an understanding of the past

HT4-2 describes major periods of historical time and sequences events, people and societies from the past

HT4-3 describes and assesses the motives and actions of past individuals and groups in the context of past societies

HT4-4 describes and explains the causes and effects of events and developments of past societies over time

HT4-5 identifies the meaning, purpose and context of historical sources

HT4-6 uses evidence from sources to support historical narratives and explanations

HT4-7 identifies and describes different contexts, perspectives and interpretations of the past

HT4-8 locates, selects and organises information from sources to develop an historical inquiry

HT4-9 uses a range of historical terms and concepts when communicating an understanding of the past

HT4-10 selects and uses appropriate oral, written, visual and digital forms to communicate about the past

Languages - French

Outcomes

LFR4-1C: Uses French to interact with others to exchange information, ideas and opinions, and make plans.

LFR4-2C: Identifies main ideas in and obtains information from texts.

LFR4-3C: Organises and responds to information and ideas in texts for different audiences.

LFR4-4C: Applies a range of linguistic structures to compose texts in French, using a range of formats for different audiences

LFR4-5U: Applies French pronunciation and intonation patterns

LFR4-6U: Applies features of French grammatical structures and sentence patterns to convey information and ideas

LFR4-7U: Identifies variations in linguistic and structural features of texts

LFR4-8U: Identifies that language use reflects cultural ideas, values and beliefs

Mathematics

Outcomes

- MA4-1WM** communicates and connects mathematical ideas using appropriate terminology, diagrams and symbols
- MA4-2WM** applies appropriate mathematical techniques to solve problems
- MA4-3WM** recognises and explains mathematical relationships using reasoning
- MA4-4NA** compares, orders and calculates with integers, applying a range of strategies to aid computation
- MA4-5NA** operates with fractions, decimals and percentages
- MA4-6NA** solves financial problems involving purchasing goods
- MA4-7NA** operates with ratios and rates, and explores their graphical representation
- MA4-8NA** generalises number properties to operate with algebraic expressions
- MA4-9NA** operates with positive-integer and zero indices of numerical bases
- MA4-10NA** uses algebraic techniques to solve simple linear and quadratic equations
- MA4-11NA** creates and displays number patterns; graphs and analyses linear relationships; and performs transformations on the Cartesian plane
- MA4-12MG** calculates the perimeters of plane shapes and the circumferences of circles
- MA4-13MG** uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area
- MA4-14MG** uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume
- MA4-15MG** performs calculations of time that involve mixed units, and interprets time zones
- MA4-16MG** applies Pythagoras' theorem to calculate side lengths in right-angled triangles, and solves related problems
- MA4-17MG** classifies, describes and uses the properties of triangles and quadrilaterals, and determines congruent triangles to find unknown side lengths and angles
- MA4-18MG** identifies and uses angle relationships, including those related to transversals on sets of parallel lines
- MA4-19SP** collects, represents and interprets single sets of data, using appropriate statistical displays
- MA4-20SP** analyses single sets of data using measures of location, and range
- MA4-21SP** represents probabilities of simple and compound events

Music

Outcomes

- 4.1** performs in a range of musical styles demonstrating an understanding of musical concepts
- 4.2** performs music using different forms of notation and different types of technology across a broad range of musical styles
- 4.3** performs music demonstrating solo and/or ensemble awareness
- 4.4** demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing
- 4.5** notates compositions using traditional and/or non-traditional notation
- 4.6** experiments with different forms of technology in the composition process
- 4.7** demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas
- 4.8** demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire
- 4.9** demonstrates musical literacy through the use of notation, terminology, and the reading and interpreting of scores used in the music selected for study
- 4.10** identifies the use of technology in the music selected for study, appropriate to the musical context
- 4.11** demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an art form
- 4.12** demonstrates a developing confidence and willingness to engage in performing, composing and listening experiences

Personal Development, Health and Physical Education (PDHPE)

Outcomes

PD4-1 examines and evaluates strategies to manage current and future challenges

PD4-2 examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others

PD4-3 investigates effective strategies to promote inclusivity, equality and respectful relationships

PD4-4 refines, applies and transfers movement skills in a variety of dynamic physical activity contexts

PD4-5 transfers and adapts solutions to complex movement challenges

PD4-6 recognises how contextual factors influence attitudes and behaviours and proposes strategies to enhance health, safety, wellbeing and participation in physical activity

PD4-7 investigates health practices, behaviours and resources to promote health, safety, wellbeing and physically active communities

PD4-8 plans for and participates in activities that encourage health and a lifetime of physical activity

PD4-9 demonstrates self-management skills to effectively manage complex situations

PD4-10 applies and refines interpersonal skills to assist themselves and others to interact respectfully and promote inclusion in a variety of groups or contexts

PD4-11 demonstrates how movement skills and concepts can be adapted and transferred to enhance and perform movement sequences

Science

Outcomes

SC4-1VA appreciates the importance of science in their lives and the role of scientific inquiry in increasing understanding of the world around them

SC4-2VA shows a willingness to engage in finding solutions to science-related personal, social and global issues, including shaping sustainable futures

SC4-3VA demonstrates confidence in making reasoned, evidence-based decisions about the current and future use and influence of science and technology, including ethical considerations

SC4-4WS identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge

SC4-5WS collaboratively and individually produces a plan to investigate questions and problems

SC4-6WS follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually

SC4-7WS processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions

SC4-8WS selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems

SC4-9WS presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations

SC4-10PW describes the action of unbalanced forces in everyday situations

SC4-11PW discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations

SC4-12ES describes the dynamic nature of models, theories and laws in developing scientific understanding of the Earth and solar system

SC4-13ES explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resource use and management

SC4-14LW relates the structure and function of living things to their classification, survival and reproduction

SC4-15LW explains how new biological evidence changes people's understanding of the world

SC4-16CW describes the observed properties and behaviour of matter, using scientific models and theories about the motion and arrangement of particles

SC4-17CW explains how scientific understanding of, and discoveries about the properties of elements, compounds and mixtures relate to their uses in everyday life

Technology

Outcomes

TE4-1DP designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities

TE4-2DP plans and manages the production of designed solutions

TE4-3DP selects and safely applies a broad range of tools, materials and processes in the production of quality projects

TE4-4DP designs algorithms for digital solutions and implements them in a general-purpose programming language

TE4-5AG investigates how food and fibre are produced in managed environments

TE4-6FO explains how the characteristics and properties of food determine preparation techniques for healthy eating

TE4-7DI explains how data is represented in digital systems and transmitted in networks

TE4-8EN explains how force, motion and energy are used in engineered systems

TE4-9MA investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions

TE4-10TS explains how people in technology related professions contribute to society now and into the future

Visual Arts

Outcomes

- 4.1 uses a range of strategies to explore different artmaking conventions and procedures to make artworks
- 4.2 explores the function of and relationships between artist – artwork – world – audience
- 4.3 makes artworks that involve some understanding of the frames
- 4.4 recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts
- 4.5 investigates ways to develop meaning in their artworks
- 4.6 selects different materials and techniques to make artworks
- 4.7 explores aspects of practice in critical and historical interpretations of art
- 4.8 explores the function of and relationships between the artist – artwork – world – audience
- 4.9 begins to acknowledge that art can be interpreted from different points of view
- 4.10 recognises that art criticism and art history construct meanings
