

# Koorungal High School

## 'Bring Your Own Device' Equity Policy

### Rationale

The Koorungal High School Bring Your Own Device (BYOD) program, like all BYOD programs in an education setting, inherently imposes a financial cost on students and their families in supplying a device. At the same time, the Koorungal High School BYOD program can only function if all students have access to appropriate technological resources in all their classes. Koorungal High School takes seriously the role of public education in ensuring all students have access to the same learning outcomes. The purpose of the BYOD Equity Policy is to establish the framework for the BYOD program to provide this for all students, irrespective of their family's financial means.

Where genuine financial hardship prevents the purchase of a device for school use a written request for support from the school will be treated confidentially and will be addressed according to the guidelines in the KHS BYOD Equity Policy.

### Objectives

1. To achieve the Koorungal High School BYOD policy, being to facilitate and promote the bringing of a computing device to school by *all* students in Years 9 - 12 for use in their education.
2. To ensure equity in the BYOD program and its implementation.
3. To ensure all students have access to appropriate technological resources in their classes.
4. To provide a framework through which family requests for assistance can be managed consistently.

### Actions

#### (a) Koorungal High School will:

1. Endeavour to provide personal access to appropriate technology resources to all students operating under the school's Bring Your Own Device program in keeping with the objectives of that policy and with respect to its role as a public education institution.
2. Ensure the BYOD Program's **Device Specification** is designed so that a range of devices in capability and cost are suitable and meet the Specification.
3. Assess applications for assistance in meeting the requirements of the BYOD program on a case-by-case basis. Due consideration will be given to all the facts of the matter, including:
  - The level of assistance requested.
  - The Year of the student.
  - The subjects the student undertakes.
  - The technology already available to the student at school and at home.
4. Consult with the parent/carer in making determinations as to what form any assistance will take.
5. Consider a range of alternatives for providing device access for students, including the loan of a laptop or other device for a pre negotiated length of time
6. The school will **not** purchase a device to assign to your child/ward nor will the school make a device available for permanent loan.

7. Make a written agreement between the school, student and parent/carer that specifies the arrangements agreed upon or determined for facilitating access to technological resources.
8. Provide a protocol for signing out and signing back in a laptop or other device from the BYOD Support Office and follow up any cases where the loaned device is not returned in accordance with the agreement.

**(B) Students and Parents/Carers:**

1. Consider your options for the purchase or lease of equipment that meets the **Device Specification**. Koorringal High School will suggest a selection of devices in a range of price points to match the Specification.
2. If you believe you are unable to provide a device that meets the specification:
  - a. Make an application in writing to the Principal, or make an appointment to speak with the Principal and indicate you require assistance in addressing the school's Bring Your Own Device program.
  - b. The school will liaise with you, your child/ward and their teachers to identify the most appropriate way to address the issue and ensure they have appropriate access to the technological resources of their peers.
  - c. You will be asked to make an agreement with the school that confirms the alternative arrangements made for your child/ward's access to technological resources.
3. The school will **not** purchase a device to assign to your child/ward nor will the school make a device available for permanent loan.
